### The Woodlands Express Park and Ride Service Changes

Due to the ongoing COVID-19 pandemic, The Woodlands Express Park and Ride schedule has been revised. The revisions are in response to continuing reductions seen in ridership levels to the Downtown and Greenway Plaza locations. This reduced schedule will help to manage the cost of service while still providing adequate space for social distancing and seat spacing on board the buses. Please [view the revised schedule here](#).

### The Woodlands Township Community Gardens to Re-open with Limited Access

On Thursday, April 2, 2020, The Woodlands Township's Board of Directors approved a process to re-open the community gardens and the Veggie Village donation garden following national, state and Montgomery County guidelines for social distancing. Our community gardens have been identified as an essential service—farm/food production - according to the Cybersecurity and Infrastructure Security Agency (CISA).

Until further notice, community gardens are restricted to those who currently lease a plot or who volunteer through the Veggie Village project. Access to garden plots is limited to a specific time and day: gardeners must register for one two-hour time slot per week. Restrictions on access help ensure that social distancing guidelines are followed. The Township is reaching out directly to all current gardeners by email with additional information and instructions on how to sign up for their time slot.

## ***Shopping***

### **Grocery Store Special Hours**

Many grocery stores have special hours either for re-stocking or for seniors and others to have a quieter shopping experience. Please visit our community resource list to [view hours at different stores.](#)

### **Staying Safe While Grocery Shopping**

Whether you are grocery shopping for your family in person or utilizing curbside pick-up/delivery options, there are still important safety practices that can help to limit your risk of exposure to COVID-19.

- Follow [federal guidelines](#) regarding social distancing and prevention. Maintain 6 feet of distance between yourself and other shoppers/grocery store employees. Pay particular attention when standing in line and continue to observe the 6-foot rule at all times.
- Disinfect high-touch surfaces such as grocery carts handles with a disinfectant wipe, if possible.
- If you use a debit or credit card, keep in mind that those machines are high-touch surfaces. Wash your hands after touching those surfaces and wipe down your cards with disinfectant wipes or an alcohol-based sanitizer. The [EPA has created a list of known disinfectants](#) that are effective against COVID-19 on surfaces.
- If possible, go to the store during off-peak hours when the store is less crowded. If you are a senior, try to shop during the Senior Hours that are offered at grocery stores in the community.
- Discard any disposable grocery bags upon unpacking your groceries and disinfect counters and surfaces where bags may have been placed for unpacking.
- Always wash your hands after handling food packaging and before eating.

Please keep in mind, [the FDA has stated that there is no evidence that COVID-19 is transmitted via food.](#) It is a respiratory-borne virus and therefore the risk of contracting it through food or food packaging is extremely low. The main risk to an individual is thought to be from exposure

to another person with COVID-19, who is symptomatic or asymptomatic, and touching one's face or mouth after coming into contact with an infected surface. [Social distancing and washing your hands frequently remains the most effective way to prevent the spread of COVID-19.](#)
